

PSHE

I would like you to take some time to consider some goals that you have and how you might achieve them. You can select some personal goals that you would like to achieve outside of school and I would also like you to consider some goals to achieve at school (when you return). For example, you may want to achieve an award in a swimming club you take part in outside of school and you may want to choose your school goal as improving your spelling. You then need to think of strategies to achieve this. What will you need? Who can help you to achieve it? How much time is needed?

My goal to achieve outside school is...
