

Thursday

## Prefixes - in, im, il and ir

To help you remember which prefix to use, practise spelling the words we looked at yesterday (and any you have also thought of). You could do this by playing the dice game (which we have played before in class).

Play the dice game.

Use the words on the tables to help you.

1 - im word  
impossible

2 - in word  
incredible

3 - il word  
illegal

4 - ir word  
irrelevant

5 - add suffix  
impossibly

6 - your choice

If you do not have a dice, you could use a computerised dice like the one following this link.

[RANDOM.ORG - Dice Roller](https://www.random.org/dice/)

### The game

You roll the dice and then have to follow the instructions as above.

Example. If you roll a 4, you need to think of a 'ir' prefix word. Someone wins if the other person cannot think of a word that has not been used yet or if someone spells the word incorrectly! You could change the rules to the person with the most words after 10 minutes... or think of your own dice game rules.

This is a spelling game so the word must be written down.
