

## Art and Design (linked with history)

Using your art and design techniques from yesterday, draw your own ancient Egyptian god or goddess in detail.

You must include the tiny details in to your drawing so you might like to do exploded view diagrams to go alongside your drawing like we have learnt in recent design technology lessons (example of this below).

You may use colour in this picture and it can be the same drawing as your English idea, as long as there is plenty of detail and you use the drawing techniques that we have been learning. If you drew a picture this morning and didn't put much detail into it, you could always add the detail with exploded view diagrams (see below).

### Example of exploded view diagrams
