

Geography

Task 1

Using the PowerPoint to help you, label the Map of Egypt with key geographical features.

- River name
- Key cities including the capital city
- Bordering countries
- Seas
- Any valleys

You may also want to include other human geographical features

- Temples
- Pyramids

What other human features can you think of to include?

You may want to include a key for your map and put the points of a compass onto your map.

[support- all on PowerPoint slides 3 and 6]

Challenge- can you include a rough scale for your map?

Task 2

There are many reasons why the river Nile was so important. Complete the mind map below after you have read the PowerPoint about the river Nile and its importance to the people of ancient Egypt.

The River Nile
