Home Learning

Maths

- For the small hall group the learning focus is: **subtracting lengths**

Please watch the 3rd video from the link below.

<https://whiterosemaths.com/homelearning/year-3/spring-week-8-measurement-length-and-perimeter/>

Uploaded are the corresponding questions and answers.

- For year 5 the learning focus is: **mixed numbers to improper fractions**

Please watch the 1st video from the link below.

<https://whiterosemaths.com/homelearning/year-5/spring-week-5-number-fractions/>

Uploaded are the corresponding questions and answers.

- For year 6 the learning focus is: **algebra- solve simple one-step equations**

Please watch the 2nd video from the link below.

<https://whiterosemaths.com/homelearning/year-6/spring-week-6-number-algebra/>

Uploaded are the corresponding questions and answers.

These sheets do not need printing. You could write the question number with the answer next to it.

****The answers are uploaded so that you can self-mark your work- look back over any errors and try to see where you went wrong to improve your understanding****

English

Wow! What great teachers you were yesterday! You noticed a lot of the punctuation errors in the sentences with speech in and have greatly improved your understanding of speech in general.

Over the next two days, what I would like you to do is demonstrate your understanding of your recent learning by writing a diary entry from the perspective of someone other than yourself. On the English PDF, I have included some pictures for your inspiration. This is a two-day challenge so I want you to plan your writing, write and edit and improve it over the 2 days. How you structure your time is up to you; I would plan and write part of it today then finish and edit tomorrow; some of you may want to write the whole entry today to look over tomorrow. It is up to you.

Recent learning to try to include in your diary entry:

- Speech punctuation
- Fronted adverbials
- Modal verbs
- Subordinating clauses

Spelling

Complete the uploaded spelling challenge. These are different for year 5, 6 and the small hall group.

Small hall group will be investigating the prefixes 'un' and 'dis'.

Y5 will be investigating words ending with 'fer'.

Y6 will be carrying on your investigations into 'root' words

Reading

Today we are going to be focusing on whether you prefer fiction or non-fiction texts.

I would like you to use your explanation VIPERS skill when answering the questions based on the picture from a non-fiction text.

Make sure you explain your opinions clearly justifying your thoughts with words like because.

Science

Last lesson in science, you planned and set up a science investigation. You were investigating which substance would preserve the apple the best. Today is the day you uncover whether your prediction was accurate!

Please make sure you have adult assistance when opening/observing your mixtures as some are likely to be mouldy. Either complete the result and evaluation section on last week's work and send it to me, or I have uploaded the investigation document again- but remember you only need to complete the parts you didn't do last week.

When writing the evaluation, be sure to comment on whether your investigation was a fair test or not. I have included support in the PDF.

Results (this week)

Apple/mixture	Plain Apple	Salt and Bicarb	*my choice
Picture/drawing after a week →			
Description of apple/mixture			

Evaluation (this week)

Compare your prediction against your results- were you correct?

[Support- My prediction was correct, the * mixture preserved the apple the best. The apple in this mixture was the hardest and had less signs of decay and deterioration. The other two apples were a lot browner compared to the apple in the * mixture. I think this happened because..... Next time I could make sure the apples were a similar size to make sure it was a fair test].

Physical Activity

Please make sure you are keeping active. This is a VERY important part of your home-learning day. I have uploaded a physical activity daily menu (with hyperlinks), which has suggestions for you to choose from. They vary from YouTube PE lessons, yoga classes, games and lots of other ideas. If you have any other suggestions do let me know :)
